PROFESSIONAL EXPERIENCE

Government of the State of Hidalgo

Full-Stack Developer / Area Deputy Director

Pachuca de Soto, México

March 2024–Actualidad

- Led the development of mobile applications using React Native, integrating geolocation, biometric authentication, and push notifications for thousands of daily users.
- Designed and maintained scalable REST APIs using Node.js, Express, and TypeScript.
- Optimized PostgreSQL queries, improving backend performance and reducing response times.
- Deployed and managed testing environments on Rocky Linux using Nginx and PM2, ensuring stable and reliable deployments.
- Developed administrative dashboards in React for real-time monitoring and operational tracking.
- Collaborated with multidisciplinary teams to implement digital solutions for government processes.

Municipal Government of Pachuca de Soto

Web Developer & Systems Support – IT Coordination (Municipal Treasury Department)

Pachuca de Soto, México

May 2023–March 2024

- Developed and maintained internal systems for inventory management, property appraisal, and administrative fine control.
- Refactored interfaces using Bootstrap, jQuery, and PHP, improving usability and operational efficiency.
- Managed Microsoft SQL Server databases, ensuring data integrity, backups, and high availability.
- Provided preventive and corrective maintenance for internal systems and computer equipment.

UAEH – Academic Computing Center

Full-Stack Developer Intern

Mineral de la Reforma,

Hidalgo

July 2022–December 2022

- Developed an academic survey system using PHP, SQL Server, Bootstrap, and jQuery.
- Automated data collection and analysis processes that were previously handled manually.
